Key shifts in teacher practice that support a class moving through these levels include asking questions that focus on mathematical thinking rather than just on answers, probing extensively for student thinking, modeling and expanding on explanations when necessary, fading physically from the center of the classroom discourse e. What members say. There are 14 books in the series - we were read these at school and the two I remember most are African Adventure where they have a pet cheetah and I think South Sea Adventure where one brother gets stuck in a giant clam. The closer he gets to her, the more she gets under his skin. Regie: Franz Peter Wirth.
